July 5, 2018

Dear Valued Customer,

The European Chemicals agency (ECHA) has identified a Candidate List of Substances of Very High Concern (SVHC) for Authorization. This list is available on the ECHA's website <http://echa.europa.eu/>. This list will be regularly updated when more substances are identified as SVHC. ECHA urges companies to check their potential obligations resulting from the Candidate List.

Rogers has evaluated the PORON® polyurethane products for SVHC. Rogers does not use any of the 191 substances published as of June 27, 2018 in the formulation or processing of any of the PORON® products on the market today.¹

The response provided by Rogers is based upon our knowledge of the raw materials used in its manufacture in conjunction with chemical analysis performed on similar materials. The information is accurate to the best of our knowledge.

If I may be of any further assistance, please do not hesitate to contact me via e-mail at brian.praetorius@rogerscorporation.com or by calling 860-928-8838.

Sincerely,

A handwritten signature in black ink that reads 'Brian Praetorius'.

Brian Praetorius
Quality Engineer
Rogers Corporation
